Thanks for your email, Michele. Please feel free to send any written material. But this request is for an on-camera interview. We are on deadline and need to do an interview this week, either tomorrow or Thursday. You had suggested that we reschedule last week's phone call on this issue for Wednesday (tomorrow). Can't we schedule an interview to discuss what we would have discussed on the phone? The public would really like to hear from the EPA. I'll call you to discuss.

Subject: RE: Interview

Hi Liz,

In a meeting with the Hunters Point team today, we realized that since the issue of EPA's radiation cleanup standards covers some technical ground, we'd like to start by sending you a written explanation of our work. Then if any technical questions come up for you, we can address those with you in follow-up.

We should have the written response to you later this week.

Thank you,  
Michele

Subject: Interview

Hi Michele,

Checking in with you regarding the interview. Can you please let us know what time Wednesday before 1p works for Lily Lee? We are also available any time on Thursday. Please call me today to discuss: 408-483-2084.

Thanks,

Liz
